

Mad River Guide School 2010

May 16 - May 21

If you want to guide for Mad River this season, or if you just want to sharpen your rafting skills, come to guide school.

Mad River is the only company in Jackson that offers a local guide school on the Snake River. We take pride in the fact that all our guides are highly trained in skills as well as professionalism on the river. This five day guide school provides participants with a comprehensive training experience confronting all aspects of whitewater rafting.

Mad River is a great place to work in the summer. Whether you attend guide school and become a guide or join the Mad River family as a shuttle driver or a reservationist, we look forward to seeing you here.
